

Diana Ross, You & I

(joe galdo/lawrence dermer/rafael vigil)

Nothing has changed, same as it was
It's time to think about the future
Forget about the past
Once it's all gone, you can't go back
So now it's up to us to find a way
To try and make it last

Until you give your heart completely
Unless you take that chance
Then it can't happen
It's not all in vain
We can make a change
Just you and I

Everything is left in our hands
We've gotta make a resolution
We need a better plan
Don't go too slow
We must move fast
There has to be a way to make it work
To keep it in our grasp

Until you give your heart completely
Unless you take that chance
Then it can't happen

It's not all in vain
We can make a change
Just you and I

We gotta stay together
Gotta find a ray of hope in stormy weather
Trying to make it better
Till we find a way to make it last forever

Some things remain, others have gone
It's up to us to get solutions
We must come up with one
Can't get it wrong. it must be right
Because we lost too many battles
And we gotta win the fight

Until you give your heart completely
Unless you take that chance
Then it can't happen
It's not all in vain
We can make a change
Just you and I

Everything is the same as it was
It's up to us to try to find a way
To try to make it last
