

# Diane Chase, All In Your Mind

You've been acting funny lately,  
What's up with you  
You clam up or you just talk crazy,  
Flippin' mood to mood  
If you think that I don't care,  
you're missing something  
If you think there's nothing there,  
you're wrong.

(Chorus)

It's all in your mind,  
Psyching you out,  
feeding you lines  
Your heart must be blind  
If you can't see the light in my eyes  
You can't look inside me,  
but if you could you'd find  
it's all in your mind

There's nothing wrong  
with second guessing,  
or being sensitive  
I love you,  
I'm confessing  
if I forget to mention it  
If you think that's how it is  
that my hearts not here with you  
And I've nothing more to give,  
well I do

(Chorus)

It's all in your mind,  
Psyching you out,  
feeding you lines  
Your heart must be blind  
If you can't see the light in my eyes  
You can't look inside me,  
but if you could you'd find  
it's all in your mind

Imagination, is taking you there.

(Chorus)

It's all in your mind,  
Psyching you out,  
feeding you lines  
Your heart must be blind  
If you can't see the light in my eyes  
You can't look inside me,  
but if you could you'd find  
it's all in your mind
