Ag shame if Yolandi Visser's fucking wif your brain

You're chilling in the fast lane fucking up my zoom
Lekker fokken brain strain
Keeping up with this shit
All up in the main vain keep it fucking twisted

People think they know me but they don't know shit
Follow my every move, sniff the seat after i sit

I'm coming from the dark side of the fucking moon
I'm a god or a devil
Harder than metal
Ya I'm a rebel
Fuck you if you're not on my level

Lot of nosey naaiers digging in my past
Like an irritating little finger in my ass
Ja sure Ninja changed a little since he left school
So did you but the thing is you a little less cool

Look at me now man, damn

What must i do with all this fucking money in my hand?
Used to be a no one, now i'm the fucking man
With this fuck you money to say fuck you cause I can

Woah, jissis guys, this is nice
Chilling up in motherfucking business class

Take this hot face cloth wipe my bum
Get it lekker fucking ready so that you can kiss my ass
