

# Die Happy, Extraordinary Me

You said "happy birthday" to your mum  
And then you asked me to become  
Your wife doesn't seem to be my job  
It's not a perfect timing to break up  
Everybody said I blew my chance  
Doesn't anybody understand?

It's the legendary, extraordinary me  
I'm the definition of the fucked up world  
It's the elementary, extraordinary me  
I'm a chaos queen, very proud to be  
The super legendary, extraordinary me

Every time you come and visit me  
I see you twice or disappear  
Don't you know you're boring me like hell  
I prefer to go back to my cell  
Usually I do collaborate  
But I don't want myself to overrate

It's the legendary, extraordinary me  
I'm the definition of the fucked up world  
It's the elementary, extraordinary me  
I'm a chaos queen, very proud to be  
The super legendary, extraordinary me

Everybody said I blew my chance  
Doesn't anybody understand?

It's the legendary, extraordinary me  
I'm the definition of the fucked up world  
It's the elementary, extraordinary me  
I'm a chaos queen, very proud to be  
The super legendary, extraordinary  
Super legendary, extraordinary  
Super legendary, extraordinary me
