

# Die Krupps, Hi Tech Low Life

data spies are scanning me  
invasion of my brain  
they're digging deep  
they drive me mad  
I think I go insane  
a silent virus takes control  
and puts me on the screen  
my memory on empty hole  
no one to hear me scream

High Tech  
Low Life

I drown in information  
all systems overload  
target of infiltration  
last try to break the code  
a silent virus takes control  
and puts me on the screen  
my memory on empty hole  
no one to hear me scream
