

Die Mannequin, Do It Or Die

D-D-Do it or die!

Let's burn the town, until we all fall down.
My karmas crowned the king of endless stance.
Slaughtered inside, the daughter you can't hide. Pray for your life before you pray for mine.

What she takes a bite out of always takes it right out of her
What she takes it right out of always takes a bite out of her

Do it do it or die
do it do it or die
whoa!
might be something in mind
do it do it or die

her sins will fall
the journey up and all
Why should I care? When you were never there
Keep this in mind, there is no end in sight
why am I always careful, always daring

What she takes a bite out of always takes it right out of her
What she takes it right out of always takes a bite out of her

do it do it or die
do it do it or die
whoa!
might be something in mind
do it do it or die
Must be something in my head
do it do it or die
Must be something in mind
do it do it or die

My curse and my best friend sometimes it weakens the end (4x)
Sometimes it weakens the end
yeah

Must be something in my head
Its not like you'll never know
Must be something in my mind
Its not like you'll never know
do it do it or die
do it do it or die
whoa!
might be something in mind
do it do it or die
