

Diecast, These Days

Come into my own
Come into my own
Look inside myself
See the path that I've chosen
It's time for me to lose the pain I've found

Hating every day
Never lived for the moment
I want to scream until this cell corrodes
I've thrown it all away
I've thrown it all away
It's time for me, to take this back myself

Chorus
These Days, are all gone
Waking to the madness
In time to see, the only life I'm living for
These Days, are all gone
Living in the darkness
I walk alone
(On my own)

Look the other way
Never solved the weakness
Of living life in chains that drag me down
Running through the maze
With no sense of direction
Can't give in until I find a way through

I'll take this, bullet between the eyes
I'll take this, now is my time
I'll take this, bullet between the eyes
I'll take this, it's my time

Chorus
(all alone)

Come into my own
Come into my own, its time for me
These Days, are all gone
Now its my time, to come into my own
These Days, are all gone
Now its my time, to come into my own
