

# Diffuser, She's All Mine

When the sky is dark enough  
You can see her glowing like an angel does  
She comes and goes  
With the flow  
She comes and goes  
Without a worry in the world

and

(chorus)

she's all mine  
I never thought love could come back around again  
I'm in too deep I can't be cheap  
She makes me feel just like I'm a kid again  
She's all mine

I can't remember what its like  
Living day to day without her in my life  
She comes and goes  
with the flow  
She comes and goes  
Without a worry in the world

(chorus)

She fell into a hole inside my heart  
I have to be the luckiest by far  
I know that she is all i'll ever want  
and all i'll ever need

(chorus)

She's all mine (x3)
