

Diffuser, Wides Eyes (Photograph So Well)

10 years wasted passing time like quarterbacks
Seniors lined up for their reunion photographs
10 years passing I got a full mouth so much so much to say
leaping forward i guess this is what they all became

You ran from your life
are you satisfied?

The years did us well
Fools now honored
Wide eyes photograph so well

The years did us well
Fools now honored
Wide eyes photograph so well

Feeling Awkward
No ive got the chance to be the man
You face changed so
But I recognize your pretentious stare

You ran from your life
are you satisfied?

The years did us well
Fools now honored
Wide eyes photograph so well

The years did us well
Fools now honored
Wide eyes photograph so well

You ran from your life
are you satisfied?

The years did us well
Fools now honored
Wide eyes photograph so well

The years did us well
Fools now honored
Wide eyes photograph so well

The years did us well
Fools now honored
Wide eyes photograph so well

The years did us well
Fools now honored
Wide eyes photograph so well
