

# Digimon, Butterfly (English)

I'll become a happy butterfly, and ride on the glittering wind  
I'll come to see you soon  
It's best to forget the unnecessary things  
There's no more time to be fooling around

What do you mean, wow wow wow wow wow? I wonder if we'll reach the skies  
But, wow wow wow wow wow I don't even know what my plans are for tomorrow

After an endless dream, in this world of nothingness  
It seems as if our beloved dreams will lose  
Even with these unreliable wings, covered in images that tend to stay  
I'm sure we can fly, on my love

I'll become a merry butterfly, and ride on the earnest wind  
I'll come to see you where ever you are  
Ambiguous words are surprisingly handy  
I'll shout it out, while listening to a hit song

What do you mean, wow wow wow wow wow? I wonder if it'll echo through this town  
But, wow wow wow wow wow There's no use anticipating

After an endless dream, in this miserable world  
That's right, maybe not using common sense isn't so bad after all  
Even with these awkward wings, dyed with images that seem to stay  
I'm sure we can fly, on my love

After an endless dream, in this world of nothingness  
It seems as if our beloved dreams will lose  
Even with these unreliable wings, covered in images that tend to stay  
I'm sure we can fly, oh yeah

After an endless dream, in this miserable world  
That's right, maybe not using common sense isn't so bad after all  
Even with these awkward wings, dyed with images that seem to stay  
I'm sure we can fly, on my love
