

# Digital Ruin, Letting Go

Everyday there's something new to bring me down  
Worlds collide, no answers to be found  
But don't get me wrong, it's not you I blame  
I just never learned to live without the pain

[Bridge]

Somehow I've lasted until the end  
Without the thought I never could survive alone  
Somehow I've lasted until the end  
But I don't feel the same no more

[Chorus]

I'm letting go that feeling you once cared  
I'm letting go that feeling we once shared

Everyday there's something new to dream about  
Passing lives, universal doubt  
Don't get me wrong, it's not you I blame  
But I won't forget the person you became

[Bridge]

[Chorus]

It fell apart in the end, but you know the reason why  
You went looking on that other side  
I keep searching for that man I left behind  
But I fear he's lost in another time  
I'll find a way through this water before I drown  
And I'll be back to show you all  
You can't keep me down

[Chorus]
