

Digitalism, Anything New

Everything is anything new
The future is a thing that's a danger to you
Even the minimum is maximum
Gold will never become platinum
I don't get what's up with you
Is it the way that you don't move?
Got to get your ass up in a way
that the others can't copy too

The future isn't part of your identity
Never will it be fine
Rather will it be your personality
that will have to re-define
Everything is
anything new
Everything is
anything new
Anything new is
anything new
(repeat)
