

# Dina Carroll, Let It Go

As I was slipping under  
I heard your voice again  
And I felt you so near  
Though I know you're not here  
Now I'm falling through the stars  
And you're right here in my arms

Let it go (just let it go), let it go (baby won't you let it go)  
Just turn around and let me start again  
Let it go (just let it go), let it go (baby won't you let it go)  
It's the only way my heart will ever mend

You said we'd last forever  
And I would see a smile  
When you taught me a song  
When I could do no wrong  
You said, "Baby, don't be sad  
Don't get caught up in the past"

Let it go (just let it go), let it go (baby won't you let it go)  
Just turn around and let me start again  
Let it go (just let it go), let it go (baby won't you let it go)  
It's the only way my heart will ever mend

Yes, I know we talked it over  
And I know that  
If we go back  
I'll go out of my mind

Yeah, yeah, yeah, my baby  
Let it go (just let it go), let it go (baby won't you let it go)  
Right here, right now in my arms  
Just turn around (let it go), my baby (baby won't you let it go)  
Just turn around and let me start again  
Let it go, baby won't you let it go  
Said we would last such a long time  
Let it go, let it go, let it go
