

# Dinosaur Jr., Gotta Know

I (looked) all around  
Open my eyes I found  
You crying, crying on the ground  
If I told you then  
Now, were you listening?  
Now just tell me where, can't pretend  
Slippin' through my mind  
Letting go this time  
Will I find you?  
It's a special place  
It's been hard to taste  
If you let me, it won't go to waste  
If I let you go, will I ever know  
Cause I gotta know, gotta know  
You've been through my mind  
Letting go this time  
Need to find  
When I helped you close  
Felt my mind explode  
At that point, that point my whole life froze  
Can't go back from here  
Feelings far from fear  
It's over, take my hand, we'll disappear  
I looked all around  
Open my eyes I found  
You crying, crying on the ground  
If I told you then  
Were you listening?  
Now just tell me where, I can't pretend  
It's a special place  
It's been hard to taste  
If you met me, It won't go to waste  
If I let you go, will I ever know?  
Cause I gotta know, gotta know  
We've been through my mind  
Not letting go this time  
Still not fine
