

# Dinosaur Jr., This Is All I Came To Do

Take my problems take me anyplace  
Take my my mind as well  
I been trying long, got nothing left  
It's down to you as you can tell  
And it bothers me, all of the while  
And I needed more than had time

This is all I came to do  
This is all I came to do  
This is all I came to do  
This is all I came to do

I need much more than I had before  
Give me my my mind as well  
I been waiting here got nothing drawn  
I been lonely you can tell  
And I wanted to end the day  
And I wanted love to get in the way  
I pray I get it

This is all I came to do  
This is all I came to do  
This is all I came to do  
This is all I came to do

Hate to say it but you told me so  
I tricked my my mind its true  
And I thought hard about all I could be  
Please just tell me what to do

This is all I came to do  
This is all I came to do  
This is all I came to do  
This is all I came to do

This is all I came to do  
This is all I came to do  
This is all I came to do  
This is all I came to do
