

# Dinosaur Jr., Thumb (Mark Goodier Session)

There never really is a good time  
There's always nothing much to say  
Pretty good, not doing that fine  
Getting up most every day  
Steppin' out, I tried to fix it  
Pulled a thumb out of that hole  
Give me ingredients, I'll mix it  
How can you move without a goal  
There never really is a good time  
There's always nothing much to say  
Pretty good, not doing that fine  
Getting up most every day  
An excuse is all you're in for  
The abuse is all you crave  
Sure you know just what is in store  
Wait and see if I'll behave  
There never really is a good time  
There's always nothing much to say  
Pretty good, not doing that fine  
Getting up most every day  
There's a time, just let me know now  
When it's with you I'll be glad  
That I was right there just to show you  
At least it's more than what you had  
There never really is a good time  
There never really is a good time  
There's always nothing much to say  
Pretty good, not doing that fine  
Getting up most every day
