

# Dio, Losing My Insanity

Someone said  
You'll light up the universe  
It's there in your head then  
Crazy comes to call

Break me down  
I'm only an everyone  
Running from free  
Running from me

And though it's not of my choosing  
I'm losing my insanity  
Again

Someone said  
Forever was yesterday  
So open your head when  
Crazy comes around

Break me down  
I'm only an innocent  
Howl at the moon  
Knowing that soon

And though it's always confusing  
I'm losing my insanity

Round and round  
Like the wheels in my mind  
Round and round and down and down and down  
And down and down

Someone said  
Believe in your otherside  
It's there in your head and  
Waiting for a ride

Break me down  
Ah once I was everything  
Breaking the law  
Quick on the draw

And though it's not of my choosing  
I'm losing my insanity  
Again
