Hosoi ude ga kirei na kimi no uso
Ame ni nure, tatazunda kibou mo uso?

Nuda ni naita koto ni ima mo kigatsukenai mama
Tada kowai fuurin, yami wo saki
Nama atatakai kaze to iki wo koroshi

Unreachable clear darkness,
The red that is torn into this world where I peeped through my fingers
The lie of you who have beautiful slim arms
The hope that lingered being wet with rain is a lie too?
FARAWAY blurring sky that circles in the dream of decaying away just
gets dark

Even the fading existence remains late
Even now I have not be able to notice that I cryed meaninglessly
Just be scared
The wind-bell tears the darkness
I kill the uncomfortably warm breeze and my breath
FARAWAY blurring sky that circles in the dream of decaying away just...

As I looked back the nights up to yesterday...
Never again...the light has gone out...can't realise
Never again...anybody no more...disappear everything
With the pain that I endured screaming and living
over the darkness, to the place where the bell is
