

Disturbed, Voices (Clean Version)

<So, are you breathing?
So, are you breathing?
Now Now
Are you breathing?
So, are you breathing?
Now!

Wake up, are you alive?
Will you listen to me?
I'm gonna talk about some freaky s*** now
Someone is gonna die when you listen to me
Let the living die, let the living die, say

Wake up, are you alive?
Will you listen to me?
I'm gonna talk about some freaky s*** now
Someone is gonna die will you listen to me
Let the living die, let the living die

Say, are you breathing now?
Do the wicked see you?
You still breathing
You're making me known
Are you breathing now, do the wicked see you
You still breathing

So!

What's up
I wonder why do you listen to me
I'm gonna make you do some freaky s*** now
Insane, you're gonna die when you listen to me
Let the living die, let the living die, say

What's up?
I wonder why do you listen to me
I'm gonna make you do some freaky s*** now
Insane, your gonna die will you listen to me
Let the living die, let the living die.

Say, are you breathing now
Do the wicked see you
You still breathing
You're making me known
Are you breathing now, do the wicked see you
You still breathing

So!

(Spoken)

Save me god!

I can hear the voice, but I don't wanna listen
Strap me down and tell me I'll be alright
I can feel the subliminal need to be one with the voice
And make everything go

I can hear the voice, but I don't wanna listen
Strap me down and tell me I'll be alright
I can feel the subliminal need to be one with the voice
And make everything all right!

Say, are you breathing now

Do the wicked see you
You still breathing
You're making me known
Are you breathing now, do the wicked see you
You still breathing

So, are you breathing
So, do you breathe now, now
So, are you breathing
So, do you breathe now?
