

Divine, Good 'N' Plenty

Listen honey can't you see
That I'm the one that's gonna show you love
And make you feel so much pleasure
Don't watch the feeling
Just go with the flow
Our flame will burn all night long

When your body's next to mine
You're giving up that sexy vibe
I wanna take you to another level baby oh

And when you need a special feeling
All you gotta do is call me up oh
I'll give you good and plenty of it
And when you're feeling down and low
All you gotta do is let me know yeah
I'll give you good and plenty of my love

Hey hey sugar the time has come
For you to let down your guard and accept all of my precious treasures
I'll share my secrets and open my heart up to you
It can only get sweeter baby

I'm gonna take the time
To make your love all mine
Come let me take it to another level baby

And when you need a special feeling
All you gotta do is call me up oh
I'll give you good and plenty of it
And when you're feeling down and low
All you gotta do is let me know yeah
I'll give you good and plenty

When your body's next to mine
You're giving up that sexy vibe
I'm gonna take us to another level oh
And when you need a special feeling
All you gotta do is call me up oh
I'll give you good and plenty of it
And when you're feeling down and low
All you gotta do is let me know yeah
I'll give you good and plenty

I've got plenty of good love
It's waiting right here for you baby
So come on take it
I'm ready and willing
