

# Divine, Good 'N' Plenty

Listen honey can't you see  
That I'm the one that's gonna show you love  
And make you feel so much pleasure  
Don't watch the feeling  
Just go with the flow  
Our flame will burn all night long

When your body's next to mine  
You're giving up that sexy vibe  
I wanna take you to another level baby oh

And when you need a special feeling  
All you gotta do is call me up oh  
I'll give you good and plenty of it  
And when you're feeling down and low  
All you gotta do is let me know yeah  
I'll give you good and plenty of my love

Hey hey sugar the time has come  
For you to let down your guard and accept all of my precious treasures  
I'll share my secrets and open my heart up to you  
It can only get sweeter baby

I'm gonna take the time  
To make your love all mine  
Come let me take it to another level baby

And when you need a special feeling  
All you gotta do is call me up oh  
I'll give you good and plenty of it  
And when you're feeling down and low  
All you gotta do is let me know yeah  
I'll give you good and plenty

When your body's next to mine  
You're giving up that sexy vibe  
I'm wanna take us to another level oh  
And when you need a special feeling  
All you gotta do is call me up oh  
I'll give you good and plenty of it  
And when you're feeling down and low  
All you gotta do is let me know yeah
