

# Dixie Chicks, Bitter End

The words that you said  
They still ring in my head  
Don't you know  
We say goodbye  
With a tear in our eye  
Oh, where'd you go

It's alright you can sleep tonight  
Knowing you'll always live on in a song

Farewell to old friends  
Let's raise a glass to the bitter end  
Farewell to old friends  
Will you be the same when we see you again

Remember the days  
When we'd laugh as you played  
Who would have known  
The water would come and just take you away  
Oh, where'd you go

It's not alright  
I can't sleep tonight  
Knowing you should have played on  
On and on

Farewell to old friends  
Let's raise a glass to the bitter end  
Farewell to old friends  
Will you forgive me when I see you again

You had a good time  
Drinking all of our wine  
After the show  
We all rode the wave  
Of that crazy parade  
Oh, where'd you go  
What happened to  
The ones we knew  
As long as I'm the shiniest star  
Oh, there you are

Farewell to old friends  
Let's raise a glass to the bitter end  
Farewell to old friends  
We'll still be here when you come round again
