

Dixie Chicks, Thrill Is In The Chase

Girls never like to know
Their love for him is true
Cause the nature of the beast
Says he wants to pursue
He wants what he cannot have
And he won't be outdone
Cause he'll always love the one that keeps him on the run

The thrill is in the chase
And I guess they know that too
Cause I've been running long and hard
And can't catch up to you
Girls if you think you've found true love
Keep your poker face
Cause I know better, the thrill is in the chase

If he's far, far away
Don't call him on the phone
Never let him know

You spend some nights alone
I can tell you one thing more
That I've found to be true
That he'll always love the one that makes him blue

The thrill is in the chase
And I guess they know that too
Cause I've been running long and hard
And can't catch up to you
Girls if you think you've found true love
Keep your poker face
Cause I know better, the thrill is in the chase

Girls if you think you've found true love
Keep your poker face
Cause I know better, the thrill is in the chase

Cause I know better, the thrill is in the chase
