

Dj Ben and Sushi, Me & Myself

Still in London here
Only me, and myself.
I'm surviving in, a jungle in the western land.
No escape from here,
And I've lost my friends
As anoma said, I'm sending out an SOS.
Walking round and round, I'm losing my direction,
No more faith inside, no home, no resurrection.
This is everywhere, and this is my obsession,
And the sun is getting louder, I found my new direction.
Have all the nations to follow.
Singing the sunset of time.
Didn't see today as tomorrow.
I found the meaning of life.
I found my new direction...
Only me and myself,
jungle in the western land.
Dance walking round and round, I'm losing my direction (And dance)
No more faith inside, no home, no resurrection (And dance)
This is everywhere, and this is my obsession,
And the sun is getting louder, I found my new direction!
Have all the nations to follow.
Singing the sunset of time.
Didn't see today as tomorrow.
I found the meaning of life.
