

# DJ Bobo, Can You Hear Me

Intro:

Can you hear me  
I must have been blind to leave you this way  
It's hard to say, I miss you  
I can't live without your love

Ref:

Can you hear me, can you hear me  
I know you've got the key  
With you I felt so strong  
Can you hear me, can you hear me  
Your love can set me free  
I know that I was wrong

Ref B:

What I'm gonna do, can you guide me through  
Oh, can you hear me, where are you  
What I'm gonna do, can you guide me through  
Oh, can you hear me, where are you

Rap 1:

Let us try again just one more time  
Let the love we found be back as yours and mine  
One more chance we gonna taste it  
Now or never, no time to waste it  
Hold me, the moonlight is shining bright  
Touch my body soft tonight  
And tight, your love's so strong  
I'm dreaming of you all night long

Rap 2:

Original unique like melody  
The harder I try the bigger is the tragedy  
Heartbeat energy for now and eternally  
Take my dreams and be my destiny  
I feel, there is a vibration  
You and me as one, what a combination  
Love, it's a prime temptation  
Can you hear me, my imagination
