

# DJ Bobo, Dance Into The Light

Chorus:

Were gonna dance into the light  
Now let the rhythm take control and set you free  
Were gonna dance into the light  
Oh I can feel this night will last eternally

Chorus B:

Were gonna dance, dance into the light  
Ouoh,  
Were gonna dance, dance into the light

Verse 1:

You gonna get me swaying  
To the hypnotising beat  
The rhythms gonna take me  
And make me feel that special heat  
Now Im gonna get the feeling  
We can enjoy this simple dance  
There is no time to waste now  
This perfect night will be our chance

Bridge:

Theres something in the air tonight  
Just you and me come and hold me tight  
This aint no dream, do the dance of love  
And feel the beat

Verse 2:

The music will take over  
With your body next to mine  
You can drive me crazy  
Dont hesitate and waste no time  
Oh come and dance with me my baby  
And shake your body to the groove  
This is a night to remember  
Girl youve got this magic move

Midpart:

I enjoy to call your name  
You can light my burning flame  
Let our bodies synchronize  
Oh can't you feel it
