

DJ Bobo, I Feel It

Refrain:

Ask me why
Why i tell the space like another space
Its somewhere the sky is blue
Ask me why
Why its not a dream in the children's scream
Its a nightmare the sky is blue

D.J.BOBO:

It will blow your mind no doubt its true
Together were you want separator will you to
Scream it scream it loud this is bad
Its a piece of your heart when you feeling mad
You think all the trouble in the world are made for you
Then you see the sky the sky is always blue
Everybody in the world has a chance in a place
Stop becomes the culture and the race

Refrain:

I feel it feel it every day and night
I hear music then everything's alright
I feel it feel it every day and night
I hear music then everything's alright

Ask me why
Why you had your mother you don't watch no other
Its a fight there the sky is blue
Ask me why
Why I start to brake here and now today
Its a shame there the sky is blue

D.J.BOBO:

This is the land of the sun with the golden shine
A place that's once for always mine
Today is the day like the on your first rendezvous
You feeling really nervous you don't know what to do
Some say that you are out of space
But you are a part of the human race
Life goes up and down and that's true
When you think its over then the sky is blue

Refrain:

I feel it feel it every day and night
I hear music then everything's alright
I feel it feel it every day and night
I hear music then everything's alright

D.J.BOBO:
