

# DJ Bobo, Keep On Dancing

Chorus:

Just keep on dancing, just keep on dancing right now  
Right now  
Just keep on dancing, just keep on dancing right now  
Uh uh yeah yeah

Rap 1:

Dance, sweat move your body  
Jump around, start the party  
Enjoy yourself, you are not a stereotype  
Express yourself then you will feel alright all night  
'Cause it's party time that's why I'm here  
Kicking a rhyme  
Get up, get down, get into the break stop  
Four and three and two and one  
Here we go let's have some fun  
Fresh music is what it's all about  
Now all the ladies scream and shout  
Now get crazy and start humpin`  
Dancin', jumpin', sliding and act like a wild thing  
I've got the rhythm which keeps you pumpin`  
'Cause my singin` lady makes you jumpin`

Rap 2:

Move your feet to the rhythm of the beat  
Pump up the volume, feel the heat  
Turn up the bass and get steady  
Let the music move you, get ready  
Shake it, break it, just take it  
Get on the dancefloor 'cause I make it  
Rhythm and bass gives you the power  
Like another nuclear shower  
Once again in the place it's groovin`  
The record is playing the crowd is moving  
Pump up the bass in the place  
Party people, no time to waste  
No matter how fast you walk I am faster  
Don't let me get to you I am the master  
I play the hits and you start to party  
Come on girl let's pump that body

Midpart:

C'est la musique qui nous rend ensemble  
Qui fait me souvenir de notre temps ensemble  
C'est l'amour qui fait la vie possible  
C'est l'amour qui fait la vie possible
