## DJ Bobo, Let's Come Together

Let's come together and have some fun Let's come together we're dancing in the sun It's now or never we take the chance The time is right we're gonna sing this song tonight

One step to the left one step to the right Don't stop to dance till the morning light The groove that keeps the world in motion All the people in the place in a deep devotion

The rhythm like a heart attack

The rhythm for a maniac

The rhythm and the bass makes you wanna dance

The time is right you better take your chance
