

DJ Bobo, One Night In Heaven

Chorus:

One night in heaven
Uh, where we have started from
I know our time has come
One night in heaven
Uh, I need you more and more
You are the one I have been waiting for

Chorus B:

One night in heaven, one night in heaven
I wanna be - one night with you
I wanna be - one night
One night in heaven with you

Verse 1:

There is something words can not express
Passion is what I feel for you
I cant stay alive without your love
My heart is beating just for two
Every night with you is like a dream
Announcing an amazing day
And since I met you I feel so free
Lets escape and fly away

Verse 2:

No one else can just compare with you
Youre the only one for me
And my heart is full of things to say
We were always meant to be
Let me know what youre believing in
What you really feel inside
Can you tell the same when Im with you
You can light my darkest night

Midpart:

There is something words can not express
The way I feel for you
One night in heaven
I know our time has come
One night in heaven
You are the one I have been waiting for
