

DJ Bobo, Wonderful World

Refrain:

Its a wonderful world where we belong to
There are so many things we can learn
Its a wonderful world and we will promise
We will take our chance

Its a wonderful world where we belong to
We have a heart full of dreams
Its a wonderful world and we will promise
We will take our chance

Its a wonderful
Its a wonderful
Its a wonderful world

1.
Walk along the road, the view gets no clearer
Dont waste your time dont let nobody hear ya
Here is your harmony, here is your friend
A positive spirit thats holding your hand

Stop, step back dont let somebody play the game
Scream it out then you can take the pain
Open up your mind, free your soul
Its a wonderful world and were taking control

2.
Its a constant fight that will always last
Its a war between the present, the future and the past
Confusion goes on, do we know right from wrong
Live each day like the last ,then youre strong

The clock of your life is ticking slower and slower
If we give up our dreams we go lower and lower
Open up your mind ,free your soul
Its a wonderful world and we are taking control
