

DJ Clue, Hurry Up

When we first met
I told myself you was the one
To lay up next to me
Late at night when work was done
You looked into my eyes
How could something so right be wrong
Gotta find a way to leave him for you
So I start a fight
Get him mad at me
The we'll be breakin' up temporarily
That's when I'm callin' you
To head over your house
Baby I love the way you take care of me
When you see me down
I love it when you tellin' me

Hurry up
Come quick
I'm here for you
Don't front baby
He aint shit
I know what ya goin' through
Hurry up
Come quick
I'm waitin' for you
I gotta find a way to leave him for you
Uh uh uh
Uh hurry up
Uh uh uh
UH uh uh

When I lay down at night
Why the hell are you on my mind
When I'm up next to him
maybe cause he don't treat me right
You could be lovin' me
I know he does his thing on the side
Gotta find me a good reason to leave
So I start another fight
To get him mad at me
Then we'll be breakin up
A good excuse to leave
And then that's when
I'm callin' you (Callin' you)
To head over your house (Your house)
Baby I love the way you take care of me
When you see me down
