

# DJ Dado, Dreaming

This is my reality  
Who knows if it is okay  
My dreams come around  
It's lonely, lonely

You tell me I will survive to all my dreams  
But I can share them to my reality  
They don't belong to me (I don't know why)

Somebody says there's no way they help your life  
I don't know how, I would stand and morn around  
They are my hope and ground

I'm dreaming everyday, dreaming every night  
Who knows if it's okay, i can't get him off my mind

I'm dreaming everyday, dreaming every night  
I'm dreaming everyday, dreaming every night  
I'm dreaming everyday, dreaming every night  
I'm dreaming everyday, dreaming every night

This is my reality  
Who knows if it's okay  
My dreams come around  
It's lonely, lonely
