

# DJ Philip, Eternally

Eternally

Close your eyes and follow me

To my world of fantasy

We're livin' an ecstasy

Use your mind baby can't you see

It's your only destiny

And we'll live eternally

Eternally?

Lift your head up

Reached to the sky

Together we will fly over the hills

Take my hand now and come to me

It's your only destiny

And we'll live eternally

Eternally?
