

Dj Project, Before I Sleep

Got that feeling again
`Cause you still haven't call since god knows when
All allone in the dark
I need you by my side when I wake up
What I want you to wait..
...?
Maybe later i might
Find you inside my dreams tonight
Can't stay here anymore
Nothing is the same since you walked out the door
Sometimes I feel strong
I forget that you're really gone
I imagine we meet
Tears are falling and i can't speak
Say you're back yo stay
`Cause when you're here everything's ok....
Refren : Before I sleep i say your prair
Take me back to the love we've shared
Let me find ..that love divine
When we were together...(x2)
and you were still mine....
I just can't go on
All I want to have there`s no more
tears fall like rain
but they just don't put out the flames
everything i do
always seems to remind me of you
please come back to stay
`cause you make everything ok...
