

# Dj Project, Forever And A Day

I can't feel u in my arms  
I can't touch u anymore  
I'm now lost without your smile  
and I can hear you when  
when you're telling me goodbye  
And I still need u here  
I need u in my heart  
telling me that I'm the one  
you'll never break apart  
but I'm so lonely here  
you've pushed me far away  
but I will love,love u still  
forever and a day  
I see clouds above my head  
I see rain,it's falling down on me  
I am lost on my own way  
and I can't feel u here  
so that I won't be afraid anymore
