

# DJ Tiesto, Love Comes Again

You have become  
What you have always been  
Life figuring out  
Peripheral vision

No words we can speak  
our paths have been chosen  
But all the trails that we trek  
Should lead us back to here  
Because our

Love comes again  
Just when I've broken down I found  
Love can come again  
You gotta believe that  
Love comes again  
Just when I've broken down I found  
Love can come again

Dig within me  
Turn all the secret stones  
forests and fields  
Breathing with blood and bones  
Still no words we can speak  
our paths have been chosen  
But all the trails that we trek  
Should lead us back to here  
Because our

Love comes again  
Just when I've broken down I found  
Love can come again  
You gotta believe that  
Love comes again  
Just when I've broken down I found  
Love can come again
