Just know everyones's doing fine down here in...

Well I use this net on my comp..'cause to talk to my friends
I use Wchat to talk to them with out a doubt.

I know you want An @ in the Channel,

Then one day that I loged on to see aw the Lamers was bashing at me.

they screamed why do you ban us and nuke my comp cold,

I said a I got the @ just do what you're told.

And Disrupt1 and PNUTTTER started joining the fight and then

CoolDeal pushed me with all his might and then Genevere

slapped me and she kicked me in the head -it's called

revenge JediBoy said Snowed

I said what did I do to make you all so mad?

You got an AWING problem and your attatude is bad.

And then SkyHawk said you better run and hide

but then my friend TuperLady came and joined my side.

she said if it wasn't for the Jedi the chat would be so lame

You should be shakin' his hand and sayin' pleased to meet ya

he gives you a purpose and he gives you a goal

You should be kissin' his feet or kissin' his ass

Now all the angry lamers just leave me alone,

And we all live together in our happy Chat a thanks to
