

Dmitry Koldun, Work your magic

Welcome to the night and you will see
Youve got the magic power
I am on my way I keep the key
To your tower
You can serve me something really hot
Call it love or madness
But youll get the best of what Ive got
Work your magic
I never wanna lose this feeling
I am able and Im willing
Yes, Im willing
Work your magic
You set my beating heart in motion
When you cast your loving potion
Your loving potion
Work your magic
I never wanna lose this feeling
I am able and Im willing
Yes, Im willing
Work your magic
You set my beating heart in motion
When you cast your loving potion
Over me
Baby you can put your spell on me
Making it slow and steady
Maybe I can solve your mystery
Are you ready
We are standing closely skin to skin
Playin a very old game
But the game called love you always win
Work your magic
I never wanna lose this feeling
I am able and Im willing
Yes, Im willing
Work your magic
You set my beating heart in motion
When you cast your loving potion
Your loving potion
Work your magic
I never wanna lose this feeling
I am able and Im willing
Yes, Im willing
Work your magic
You set my beating heart in motion
When you cast your loving potion
Over me
So you work your magic
Baby work your magic
Keep my heart forever bound
Work your magic
I never wanna lose this feeling
I am able and Im willing
Yes, Im willing
Work your magic
You set my beating heart in motion
When you cast your loving potion
Your loving potion
Work your magic
I never wanna lose this feeling
I am able and Im willing
Yes, Im willing
Work your magic
You set my beating heart in motion
When you cast your loving potion

Over me
