

DMX, Ain't no way

C'mon it's almost over

(uh)

Swizz Beats

(uh uh)

nigga

(uh uh uh)

Ride or die

DMX

what what what what

[Chorus]

Ain't no way your gonna stop my flow

Ain't no way y'all niggas just don't know

When niggas is about to go

Oh no oh no

Ain't no way your gonna stop my shine

Ain't no way y'all niggas gonna stop mine

Y'all niggas must be out your mind

I don't know why

DMX:

Now what the fuck is you niggas pressin me for?

It's on more ass than a hoe

And you stressin the raw

If I was testin your jaw maybe then you would respect me

But you can't respect me

Cause you don't even know me nigga

Check me

I'm that motherfucker that will put you to sleep while you sleeping

Big dot from 100 feet

You just knew you was creepin

But bad decisions lead to

Last Decisions

Fast collision

Now your ass is missing

Kick it over there

Now you bring it back to the streets

Have you forgotten what it means when a dog shows his teeth?

Let me break it down for you

He's about to attack you!

Still standing here faggot?

You must want me to smack you

You ain't been there or done that

What the fuck is y'all niggas tellin me?

And the only nigga walking the streets with four felonies

But peep this

I shit is hard

Niggas are struggling

So leave rap alone for a little while

Go back to hustling

[Chorus]

Give it to niggas just how they give it to me

Hit 'em in the rhyme because I'm an MC

Been a lot of places most niggas won't see

That's why I'm at a level that y'all niggas won't be

Let your men hold something now he want more

You ain't no fucking killer what with the front four

There was a time when the world was at your front door

Now they change places

(why)

Niggas want more

Niggas laughed at me and was mad at me

Cause the way life was going had to be a tradgedy

After me it's over I'ma take the whole verse

Try to keep it real that's why I let y'all niggas go first

But you looked the ** right in the mouth

Didn't appreciate what you got when you got it
So if I see it I'ma dot it
Better hide it
You got a car?
Better drive it the fuck up out of here
And hope and pray I don't pull up alongside it
C'mon
[Chorus]
Niggas don't know so I gotta flip
It seems they forgotten how dark it get get
Bark like a pit
Scratch when I hit
We both know you pussy but you stay talking shit
What I'ma have to do dog run up in your rest
Catch you while you comfortable put one up in your chest
Run up in your vest of course they the hollows
You going away today you just lost tomorrow
I'ma go platinum
Gots to be kidding
Make it double platinum
No Bullshit
And I'ma stay flippin flows
Rippin shows
Strippin Hoes
Gettin doe
Letting go
And niggas know who the best is
The dog DMX is
The rest is or might as well be helpless
I'm reckless
Cause when I wreck shit
I might snatch a nigga's necklace
Then go from like midnight to breakfast
C'mon
[Chorus]x2
Ayo we brought niggas back to some robot shit with this one dogg
For real
Real mechanical baby
Shit is hot
