

DNCE, Move

All I'm trying to do is make you get up out that chair and make you move,
Make you move
Grab that drink and meet me on the dance floor baby lets get crazy, move,
Baby move

I can barely feel my fingers High enough for vertigo
All the good shit lingers Yeah you know
Like water through my body
Like a river through the sands of time
To waste a moment with you would be a stupid crime
Oh yeah

She trying to tell me something
She talking with her body
She making waves inside this room, room, room
We on to something major
Just let the feeling take ya
Like it or not, might be leaving with a stranger

All I'm trying to do is make you get up out that chair and make you move,
Make you move
Grab that drink and meet me on the dance floor baby lets get crazy, move,
Baby move

When you move like
This I can tell you're a star When you move like that Wanna buy you a car Yeah Yeah
All I'm trying to do is make you get up out that chair and make you move,
Make you move

You can tell me how you want it We can take it fast or take it slow Fly you to Aruba, or Mexico
I'm clearing out my calendar
All the days that end in Y
To waste a moment with you would be a stupid crime
Oh Yeah

She trying to tell me something
She talking with her body
She making waves inside this room, room, room
We on to something major
Just let the feeling take ya
Like it or not, might be leaving with a stranger

All I'm trying to do is make you get up out that chair and make you move,
Make you move
Grab that drink and meet me on the dance floor baby lets get crazy, move,
Baby move

When you move like
This I can tell you're a star When you move like that Wanna buy you a car Yeah Yeah
All I'm trying to do is make you get up out that chair and make you move,
Make you move

All I'm trying to do is make you get up out that chair and make you move,
Make you move
