

# Doane Melanie, I Can't Take My Eyes Off You

So dear to me  
Always keep me company  
Who needs to go outside  
I will be your silent bride  
I can't take my eyes off you  
Nothing ever needs to be said  
You send your message  
right into my head  
You fill me up when I'm alone  
So soothing is your monotone  
I can't take my eyes off you  
I can't take my eyes off you  
So maybe you're not as real  
as the others  
But I choose you over all my past lovers  
For they have come and they have gone  
but I can always turn you on  
I can't take my eyes off you  
I can't take my eyes off you
