

Doc Walker, Rocket Girl

Well she said, I got this hat in California
From a man on the street, his name was Joe
Have you ever been to California
Well you really gotta go.

She said, I knew a boy down in Miami
He was a welder, just like you
I love the ocean in Miami
I've never seen anything quite so blue

Chorus

□

And I say, Hey where we going today rocket girl
Tell me what life is like, past that city limit sign
Dream your dreams in my ear, baby just get me out of here
Fly me around this world, rocket girl

She said, Have you ever been to Alberta
Wheat fields as far as you can see
Have you ever seen the prairies
Someday I'll take you there with me

Chorus

I'd never tell her she's been busted
I know she's never been anywhere just like me
But it makes her feel like Cinderella
And I get to see the world for free

Chorus. x2
