## Doctor Butcher, The Picture's Wild

Sacrifice your life, working your way to the top of the ladder Just a slave to the worlds decay No way out, need a stiff drink just to get thru the day You can say

## (Chorus:)

The Picture's Wild The Picture's Wild The Picture's Wild The Picture's Wild, Wild, Wild

Everything's a rip off, everyone's uptight Fucked up generation still can't get it right Every G-Damn move you make is on file You can say

## (Chorus)

Terrorism, communism, on the streets every day You can see it on the evening news, it's the way of the world Can't take it, never will, it's life as we know it You can say

(Chorus)
