

Dog Eat Dog, Step Right In

Clap your hands
Stop your feet

Dog Eat Dog said to step right in
Dog Eat Dog said to step right out
Tell me son what the fuck is life about

We search this whole world for love, peace & harmony
But all we found was hate, deceit & jealousy
Dog Eat Dog so come and check the dialogue
Get your brain out of the fog
Vinnie Barbarino represent the Sweathogs
All Boro Kings Roadrunner catalog
You could run but you can't get far
No matter where you at, that's where you are

No matter where you from
Don't matter what you do
We got the bangin' beats & you can all get some
It's like a rabid dog infecting you

Explosion I'm moving like motion
I'm gigantic I m deep as the Atlantic Ocean
Feel the force I strike with the iron cross
You're the face of the pale horse
True indeed we plant the seed to infiltrate the
Whole world community
We're taking no slack it's an all out attack
Cuz this time the RZA let us hook the track
Word to god together on a mission
so guard your tape deck were converting stereos
Ded and the RZArecta tell you one more time boy
Protect your neck
