

# Dog Eat Dog, Think

I don't even hear what you say  
It's all about what you do  
You think you're the mack  
I'll tell you a fact  
No-one gives a fuck about you

What it is  
What is was  
And what you always will be  
Think  
You think you're my friend  
You ain't my friend

I hear you talking about respect and clout  
You never get a bit  
A front or a back  
We're gonna smack  
Time to flip the script on you kid
