

Dog Fashion Disco, 100 Suicides

see you in hell my love
under a palm tree
sucking from a bamboo straw
patiently waiting for me

all night and everyday
i'm in a galaxy far far away
reborn unable to die
i've committed 100 suicides

reincarnation
inside an asteroid field
alien skies raining stars
sever the lifeline to me

all night and everyday
i'm in a galaxy far far away
reborn unable to die
i've committed 100 suicides
inside this violent paradise
go waste the day they own you
lights camera action rolling
as the homicidal crowds begins to kill

abort mission head on collision
as we swan dive into holy water

I remember when
I was crawling in your skin
bathing in your blood
and everything you are
take me to the time
we walked the long way home
through a forest full of wolves
where lovers come to die
what a day to die

all night and everyday
i'm in a galaxy far far away
reborn unable to die
i've committed 100 suicides
inside this violent paradise
go waste the day they own you
lights camera action rolling
as the homicidal crowds begins to kill

abort mission head on collision
as we swan dive into holy water
