

# Dogstar, The History Light

I am so blind tonight  
From the history light  
Everything that's ever happened to me  
Is in my head tonight  
It's kinda nice not to see another sight  
'Till I rest awhile  
And all...  
I...  
Need...

(Chorus)  
Is sleep- rest awhile  
Sleep- like a child  
Sleep- rest awhile  
Sleep...

I am so high tonight  
From the history light  
Everything that's even been said to me  
Is in my head tonight  
It's kinda nice not to hear another sound  
'Till I rest awhile  
And all...  
I...  
Need...

Chorus

I am so blind tonight  
From the history light  
Everything that's ever happened to me  
Is in my head tonight  
It's kinda nice not to see another sight  
'Till I rest awhile  
And all...  
I...  
Need...  
Yeah!

Chorus

Yeah...
