

# Dogwood, Rest Assured

I'm already sorry  
For all of the harm that is to come  
I'm already thankful  
For the man I know that you'll become

So look up and laugh  
We'll cross that finish line together  
Sleep tight tonight child and I will be watching over you  
Rest assured, God will be watching over you

All you need to learn  
I'll keep you safe from harm  
I'd do all it takes  
I'd lay down my life as long as I know you'll be all right

I'll give you all my victories  
'cause without you I'm not quite me  
Rest assured I'll stand right here  
I'll never leave

All you need to learn  
I'll keep you safe from harm  
I'd do all it takes  
I'd lay down my life as long as I know you'll be all right

I'll give you all my victories  
'cause without you I'm not quite me  
Rest assured  
I said I'd never leave
