

# Doja Cat, Down Low

Can I get to know you babe?

Can I get to know you babe?

Show you things these niggas see in dreams

But just don't tell your team

Keep it on the down low, keep-keep it on the down low

Low, low, low, low

Keep it on the down low

Low, low, low, low

Keep it on the down low

Down low, keep it on the down low

Low, low, low, low-low-low-low-low

No rush though baby, I'll be your shawty body

I'll let you do the naughty, make me go, "La-di-dadi"

Don't tell them secrets, I'll give 'em reasons to keep 'em bae

But this ain't creeping, nah ah, this is just freakin'

Papa, see you every weekend, ah ah

And I'm speakin', you and me can make sure ain't nobody peekin'

So can I get to know?

Can I get to know you babe?

Show you things these niggas see in dreams

But just don't tell your team

Keep it on the down low, keep-keep it on the down low

Low, low, low, low

Keep it on the down low

Low, low, low, low

Keep it on the down low

Down low, keep it on the down low

Low, low, low, low-low-low-low-low

So touch me baby, let's get this party started

I'll show you how I ride it, let you know I'm 'bout it, 'bout it

You got me fiendin', a perfect reason for pleasin' babe

I hear you breathin' in my ear, you got me screamin' babe

Baby boy I'm tryin' to know ya

See the shotgun that you hide in ya holster

We can get down on the ground or the sofa

Do you got time for an hour of Doja?

So many things that I'm dyin' to show ya

No pics when it's time for exposure

Just ridin' over and over and over and over

Can I get to know you babe?

Show you things these niggas see in dreams

But just don't tell your team

Keep it on the down low, keep-keep it on the down low

Low, low, low, low

Keep it on the down low

Low, low, low, low

Keep it on the down low

Down low, keep it on the down low

Low, low, low, low-low-low-low-low

Just don't say a thing, we'll be safe on the low

Let them wonder, babe, mystery keeps us close

Just don't say a thing, we'll be safe on the low

Let them wonder, babe, mystery keeps us close

Can I get to know you babe?

Show you things these niggas see in dreams

But just don't tell your team

Keep it on the down low, keep-keep it on the down low

Low, low, low, low  
Keep it on the down low  
Low, low, low, low  
Keep it on the down low  
Down low, keep it on the down low  
Low, low, low, low-low-low-low-low
